Citrus Logistics and Vessel Status Update

Issues and developments regarding the exporting of citrus at this time –

1. CTCT reported multiple cases of COVID-19 were detected over the weekend. The terminal stopped operations for a number of hours on Saturday 9 May and cancelled the 6am-6pm shift on Sunday 10 May to conduct sanitization of the working areas. We have been in contact with Transnet management in regards to the response and the disruption to operations. Since it has been reported that 2 of 3 people are bound to contract COVID-19 it raises concerns regarding the operational impact at all the ports terminals going forward – especially if the number of positive cases increases and becomes more frequent. The CGA will work with Transnet to ensure a more productive procedure is implemented if more positive cases of COVID-19 are detected.
2. There is a meeting schedule between industry and TPT for 12 May to discuss the DCT truck booking system, if any stakeholders would like to participate please email me and I will request with TPT on your behalf.
3. YTD export data to week 18 added below.
4. If there are any further logistics issues which need to be addressed by national government, please contact CGA as we can add these issues to the Bureau for Food and Agriculture Policy (BFAP) database. These issues are being elevated to national government for resolution. This has been an immeasurable method that has been used to resolve many constraints that have been reported to the CGA.
