Citrus Logistics and Vessel Status Update

Issues and developments regarding the exporting of citrus at this time –

1. Added below is the list of SAECS and MSCEM berthing line up in order for exporters to assess latest export opportunity to EU/UK/Med/Russia by load port. The detail is extracted from the TPT berthing line up (up to 7 days accurate) as well as future forecast based on the lines website information (updated once TPT adds the vessel to the berthing line up). From the vessel line up it appears that vessels calling PECT and Coega are on the northbound voyage ex Durban. It seems container exports from NCT and PECT have a better lead-time to market thus routing fruit and containers to Cape Town may not be necessary at this time – unless it is by choice.
2. Durban and Cape Town ports are still experiencing container vessel delays whereas this is not the case for PE and Coega.
3. From Tuesday 21 April, DCT (Pier 1 & Pier 2) will be berthing 5 vessels alongside with an extra vessel allocated to the north quay using up to 16 gangs. This will ensure vessel turnaround quicker.
4. All exporters and shippers that are intending to load breakbulk to EU/UK must understand the requirements of the FMS protocol that has been finalized for breakbulk. If you need a copy, contact Paul Cronje paulcronje@sun.ac.za as well as to enquire additional information in this regards.
5. If there are any logistics issues which need to be addressed by national government, please contact CGA as we can add these issues to the Bureau for Food and Agriculture Policy (BFAP) database. These issues are being elevated to national government for resolution.
