

Wednesday 13 May 2020 rev 1

Citrus Logistics and Vessel Status Update

Issues and developments regarding the exporting of citrus at this time –

1. Today CTCT reported that a large number of operational staff did not report for work for the first shift. Only 1 vessel could operate with 2 gangs. It is not clear if the low staff turn out was a result of the multiple cases of COVID-19 detected at the terminal over the weekend. The plan was to revert to a 3 berth operation operating 2 vessels with 4 gangs after the completion of the vessels America and MSC Marina on 12 May – which has been delayed. What we have learned is that the container terminal operations can potentially be impacted at any given time; depending on the level of COVID-19 cases detected. Exporters of citrus need to be mindful that disruptions to terminal operations can erupt at any time until the end of the COVID-19 pandemic. CTCT as an example currently stands with 7 vessels at anchorage with 4 EU/UK vessels currently at the port (America, Europe, MSC Vita and MOL Presence). Those exporters that have committed to breakbulk reefer shipping to EU/UK/Russia seem to be in a good position to obtain certainty of timeously supply of citrus to these key markets over this period.
2. YTD Production region export data by load port updated to week 19 added.
3. YTD Export data by load port by market destination by commodity group to week 18 added.
4. If there are any further logistics issues which need to be addressed by national government, please contact CGA as we can add these issues to the Bureau for Food and Agriculture Policy (BFAP) database. These issues are being elevated to national government for resolution. This has been an immeasurable method that has been used to resolve many constraints that have been reported to the CGA.

SRS Breakbulk EU/UK/RUSSIA schedule –
