# WEATHER FORECAST

OFFSHORE SYSTEM  
 MAKING WAY TO PE  
 MIDDAY THUR 30/07.

# General Feedback

1. High volume trucks arrivals expected into Durban cold stores again this week due to high production of Valencias from the northern regions. Expect delays as cold store capacity at high levels at this time.
2. Expecting very high run of container packing in EC region exporting from NCT & PECT. There will be a focused view on EC during the Wednesday reefer telecom meeting with TPT.
3. Container terminals berthing has recovered well after vessel delays were incurred from the weather front of the previous week. CTCT is also recovering well after the COVID disruptions – should be ahead of berthing in the next few days.
4. Citrus industry and TPT (planning and ops) will be holding weekly reefer do-ability telecoms (Wednesdays), any pressing issues can be tabled with CGA, FPEF, PPECB or SAAFF and this will be tabled with TPT.
5. Please note that CGA will distribute extensive production and export statistics data every Friday at midday.
