Citrus Logistics and Container Vessel Status Update

Issues which are confronting the exporting of citrus at this time –

1. The matter regarding the downscaled capacity at DCT, NCT and CTCT has been addressed with national government. It has been requested for these terminals to increase capacity to 60% - adding an additional vessel to the berth line up. We are awaiting feedback at this time.
2. Obviously with container vessels being delayed from berthing this is delaying the exporting of citrus. Some vessels are calling multiple ports and this is becoming very problematic due to delays at each port being incurred.
3. Move fruit or preferably containers to ports where vessels are calling at the last port of call. This will ensure your fruit gets to market in the quickest time frame.
4. The issue regarding the closure of various Customs offices has been rectified with SARS updating on working hours and procedures for submitting clearance documents. If there are any further issues in this regards please let us know.
5. An updated regulation now permits non-essential goods to be moved through the ports. This will permit the discharge of container vessels of all goods.
6. The replenishment of empty containers has been disrupted and there is a particular problem in Cape Town – this is however line dependent and may not affect all lines the same way.
