Summary:

- Production northern regions tracking low YTD due to decrease in GF production and later Navel production. Export focus from Durban port to Far East (Japan, China & S Korea) aligned to SAFARI, MSCING & FAX services causing some constraints. DALLRD have requested industry meeting Wed 8 June for further discussion, invite will follow. As a result of less conventional shipping to Japan, China and EU, higher demand for reefer containers in Durban inevitable.
- Production E Cape regions started later but now tracking with higher production output evident for weeks 20-21. High fruit flow to ports now imminent. Shipping services to NCT and PECT in tact which will be welcomed for the regions exports to remain at local ports.
- Production W Cape & Northern Cape regions tracking per 2022 estimates. Export focus to NWC/UK & North America.
- An appeal for Container Lines to ensure sufficient empty equipment aligned to ports per the 2022 estimates. I.e. E Cape region.
- SARS employee strike action commenced 25 May. CGA monitoring SARS service area dashboard for possible interruptions.
